

24 August 2020

Join us online for Fertility 2021.

Dear Friends and Colleagues,

The Joint Executive Committee representing the British Fertility Society, the Society for Reproduction and Fertility and the Association of Reproductive and Clinical Scientists, is delighted to announce that Fertility 2021 will go ahead in January as our first virtual international conference!

The decision to change the format to a virtual one, follows careful deliberation and consultation by each of the three society Councils and/or Executive Committees. Many factors were considered not least of which was the safety of all our delegates, speakers and exhibitors and we believe that this decision is in the best interests of all as we continue to monitor the effects of the pandemic.

While we may not be able to meet in person, the JEC is committed to bringing you the very best of the Fertility 2021 programme along together with an opportunity to submit an abstract for a short virtual presentation or poster. All of this will be available at a token and very affordable registration rate and we would like to take this opportunity to reassure all delegates/society members that scientific quality and accessibility for all national and international delegates is of paramount importance.

We would like to thank you for your ongoing patience, understanding and support for the 'Joint Fertility Venture' and the difficult and challenging decisions we have had to take in these unprecedented times. We will be updating you shortly and hope you will join us as we look to host the first digital conference in this event's history.

With best wishes

Ian Aird
Chair, Meetings Committee
British Fertility Society

Richard Lea
Programme Secretary
Society for Reproduction and Fertility

Karen Schnauffer
